Jenny Hibbert Steps Down

It is with huge regret that Jenny Hibbert has decided to step down from her role as President of the WPF and from the WPF Executive Committee. Jenny has some personal health issues and feels if she is to manage and recover from these, she needs to relinquish her WPF responsibilities to ensure she can concentrate on getting well.

The Executive Committee fully appreciate Jenny's decision and very sadly accept her resignation. Jenny has given many years to the WPF in her various roles on the Executive Committee and in particular the last couple of years when as Past President, Jenny stepped into the breach when Sue had to step down from the Presidents role and then agreed to complete another year whilst our Vice President Ron Lines found his feet. The Executive Committee can't thank Jenny enough and are hugely appreciative of her time and commitment to the WPF. She leaves a huge void in the team and will be greatly missed.

Ron Lines as Vice President will take up the reigns as President until the point of the AGM and David Del Jones has agreed to fully support Ron as Interim Vice President subject to his nomination at the AGM in March.

On behalf of the WPF Executive, and the Membership, we would like to congratulate and sincerely thank Jenny for her many years of service and commitment to the WPF and convey our very best wishes for a quick and speedy recovery.

Very best wishes Jenny from all your Friends across the WPF.
